New Job Opportunities

By Janet Ibarra

Garden City, Kansas brings more opportunities and fun. New store openings and restaurant are developing in Garden City, KS. Stores such as TJ Max, Pet CO, Dick's Sporting Goods, Hobby Lobby, Cato, Ross and more to come. Not only is Finney County developing new stores but also new restaurants, such as Buffalo Wild Wings, and a water park. Finney County's goal was to promote aid, assist industry with growth and to expand Garden City. Garden City is definitely growing with all these new opportunities.

What is your favorite store? Have you heard about Deb's closing? You probably have since there is a huge banner announcing that the store will be closing. You probably also have wondered why Deb's is closing. Not only is the store closing in Garden City but the store is also closing worldwide. The reason Deb's is closing is because the store is under bankruptcy. Deb's has announced the closing of 287 stores nationwide.

Read This!

By Jende Claros

Cinder is the first book in the Lunar Chronicles. This book is like Cinderella with a twist. At first it may seem uninteresting but it soon gets better with every page. This book has some secrets and lies that have a shocking revealing. This book is perfect for younger readers that like science fiction. Intense situation, sacrifices, and emotional moments for the readers and characters. An amazing book that you can't stop reading.

Watch This!

The movie I will be reviewing is American Sniper a mind-blowing movie depicting a life of a US soldier. In this movie you will go into one of America's top snipers with over 100 kills on his belt. This movie shows you how he trained and worked hard to get where he was. I recommend this movie because you can see what our soldiers who go to war have to

go through and the hardships they face from PTSD and other mental disorders, and physical damages. I give this movie a 5 star rating because how deep and movie it is.

Listen To This!

By Madison Koehn

Are you looking for new music to listen to? I have just the band for you. Black Veil Brides has great songs and teens all around the worlds are in love with this band with their albums. My personal favorite song from this band is "Stolen Omen." This song is from their newest album Black Veil Brides. The members of this band go by Andy, Ashely, Jake, Jinx, and Christian. I recommend this music for mostly the rock n' roll lovers.

PE should be required.

Do you want to be healthy and strong? Daily exercise is important to have strength and be healthy. Many people today don't want to do exercise, and think they'll be fine. But it can cause a major health risk. Students should be required to do Physical Education every day to stay healthy and strong.

Exercising helps you stay strong and build muscles. Now many students are weak, or lack muscles. Physical education teaches students proper exercise skills to build stronger muscles.

Having strong muscles helps students later on in life.

Physical education can cause injuries, but it can also prevent injuries. Exercising helps various parts of the body such as the heart, lungs, and back. Having more flexible joints can help prevent serious injuries. Exercising your body can help your body from health issues.

Staying active is a major role in our lives. Being active can make you happy. You can exercise with your friends and socialize. Exercising with friends can make you feel happy and feel supportive.

Students should be required to do Physical Education for better health. Students need to exercise to build muscles and to be stronger. They will be more flexible and prevent injuries.

VS.

PE should not be required.

Are you getting tired of PE? Well, a lot of people are. Most people don't like being required to take a PE class every year. In my opinion, students in middle and high school shouldn't be required to choose better classes for their future career choice, students don't want to change out every day, and some people just physically can't do PE every day.

Most students in middle and high school already know what they're going to be doing when they're older. So, having an extra class hour would let

them get them get a class that they could actually help them with their career when they're older. Most people's careers won't require them to do two stair laps and 2 minutes of jogging every day.

Students also don't want to have to change out every day, either. Most teenagers already have body and self-confidence issues. Those are definitely not fixed by 20 other teenagers

staring. Trust me, it's really embarrassing changing in front of people you don't even know.

Lastly, some students physically aren't capable to do PE every day. The teachers expect to run 2 minutes the do a couple stair laps whenever they tell you to. This also sort of goes down to the embarrassing body issues thing. It's really embarrassing being the slowest one of that has to stop. Middle school can be so cruel.
